Quarterly Economic Chronicles

The Quarterly Economic Chronicles is Vindilac Analytics' economic flagship, highlighting a series of economic events taking place at the national, regional and global levels. It is highly driven by the need for economic literacy and financial journalism in the African continent. By providing an economic report that is clear to a non-economist, we unintentionally create an enabling environment for citizenry to make informed economic decisions. The report is published quarterly and in 10 official South African languages and can be freely accessed on our website at www.vindilac-analytics.co.za

Economic Analysis

We provide economic climate analysis for businesses to plan ahead and be sustainable during economic crisis. We also provide cost-benefit-analysis for new projects.

Website design

We design websites for both new and existing businesses at affordable prices.

Service Offering

Research

We offer a wide range of research services including proof reading and editing, plagiarism, abstract and concept note, research topic and gap identification, problem statement, regressions, methodology, literature review, interpretation of findings, use of statistical software (Stata, Eviews, R, SPSS)

Tutoring

Assignments, exercises and concept clarity. The subjects tutored include Economics, Business management, Accounting, Econometrics, Mathematical economics, Statistics and supply chain.

Business Advisory

We provide business advise to start-ups and micro businesses. These include economic, tax and financial advice, competitor analysis, competitive edge, quality service, drafting concrete business plans, financial projections, market analysis, sales and marketing.

Mentoring

This includes goal planning and design, time management, networking skills, drive identification, confidence build-up, public speaking, vision, procrastination, daily motivation, emotional intelligence.
